OMEGA

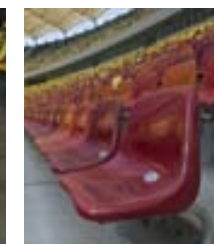

SPORT
CENTRES

COMFORT IN CLUB COLOURS

The Omega line comprises bucket-type stadium seats characterised by high durability parameters and great weather resistance. Thanks to their classic look, the chairs are a perfect choice not only for stadiums and entertainment areas but also other sports facilities.

Emotions expressed during sports events are the best test of a seat's strength; with its high quality materials, the Omega line passes the test with flying colours. The chair is made of polyamide or polypropylene – materials that have excellent mechanical and physicochemical properties – and its supporting structure is made of corrosion-proof steel. The chair's durability is increased by its strengthened edges.

Omega performs well in both indoor and outdoor facilities. In the latter, the additional advantages of the chair are drainage holes, which let rain and damp flow down the chair's surface, leaving it clean and dry. The Omega chair is suitable for various types of assembly, so it can be adjusted to almost every sports arena.

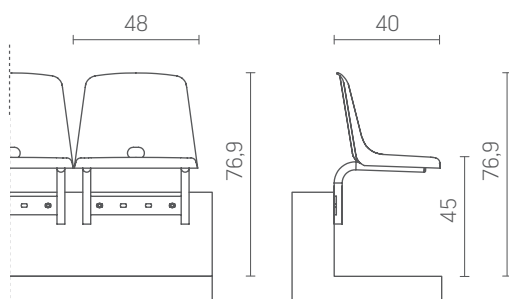

The bucket-type stadium seat combines practical and aesthetic qualities with high durability parameters. Thanks to its unique structure and the proper materials, it is a perfect choice for all sports venues.

The Omega HB chair conforms to the guidelines and requirements of FIFA, UEFA and the Polish Football Association. It was used by football fans during the 2010 World Cup in South Africa.

CHARACTERISTIC FEATURES AND AVAILABLE OPTIONS:

- The chair is characterised by high durability parameters; it is made of weather-resistant materials.
- The chair can be assembled in both indoor and outdoor facilities.
- The chair is available with a low or high backrest (LB/HB).
- The seat and row numbering system is aesthetic and legible.
- It is possible to adjust seat colours to an individual project, e.g. to a club's colours.
- Our offer also involves additional stadium equipment: railings, desktops for press, VIP armchairs and armchairs fixed to players' benches.

* All dimensions are in centimetres.

CERTIFIED PRODUCTION:

We manufacture products at a global level. Our chairs are characterised by top quality and the highest durability. In all of our production plants we have implemented the best quality management system:

ISO 9001:2000. At the same time, we take care of the natural environment. We use the environmental management systems created according to the **ISO 14001** standard in the majority of our factories. This enables

us to minimise our impact on the natural environment and confirms that our products contain no heavy metals.
